

Harmony Purple: A Better Vulnerability Management Solution

Over 60% of data breaches would have been prevented if the right patches were applied to the right systems. Traditional vulnerability scanning solutions find the open vulnerabilities in your IT systems, but do not identify which ones are the greatest risk to your organization. This is the problem we solve.

Harmony Purple from Orchestra Group is an advanced, all-in-one vulnerability management solution that combines scanning with automated attack/defense analysis. Our unique 4-step process identifies the vulnerabilities that matter most to your company and shows you how to address them. Harmony Purple saves you time and money, and keeps your organization better protected from data breaches and ransomware.

HOW HARMONY PURPLE WORKS

Scan. Low impact, agentless scan of IT systems finds and reports on all open vulnerabilities.

Assess. Each vulnerability is assessed whether it is exploitable on the system.

Analyze. Attack path analysis finds vulnerabilities that threaten the most valuable assets in the organization.

Recommend. Clear, concise reports identify what systems to patch and recommend config changes to better protect your most valuable assets.

COMPARE

Harmony Purple

Simple, all-in-one solution
Easy to use
Low TCO
Ready to go in 1-2 days
Easy to understand reports
Low impact. Run scans on live systems

Traditional Approaches

Complex, multiproduct integrations
High skills needed to use
High TCO
Weeks to install and integrate
Complex reporting
High impact. Take systems down to run scans

HARMONY PURPLE USE CASES

- ✓ **All-in-One vulnerability solution for small and mid-sized organizations**
- ✓ **Certification Audits. Ideal for one-time audits of governments agencies and other organizations**
- ✓ **Managed Security Services. Easy for VARs and MSSPs to deploy and centrally manage for multiple clients**

Attackers are going after small and mid-sized organizations with the same tools and techniques they use to attack large enterprises. Harmony Purple is the only all-in-one security solution that provides enterprise grade defense for small to mid-sized organizations.

ABOUT ORCHESTRA GROUP Orchestra Group's mission is to address the major roadblocks that make it difficult for CISOs, CIOs, and their teams to manage cybersecurity risk. Orchestra Group addresses these challenges by combining management and operations of IS, IT, Risk and Compliance into a single platform. Visit us at www.orchestrargroup.com
